

Dr Sandra Khong Tai is Clinical Assistant Professor in Orthodontics at the University of British Columbia, and Adjunct Clinical Assistant Professor at the University of the Pacific. Dr Tai is a Diplomate of the American Board of Orthodontics and European Board of Aligner Orthodontics. She has been an Invisalign certified orthodontist since 2000 who has treated 5,000+ cases. Dr Tai is the author of the textbook Clear Aligner Technique which has been translated into 13 languages around the world. She has authored a chapter on Clear Aligner Treatment in the 7th edition of Graber's Orthodontics (Elsevier 2023). She has also written a chapter for the Moyer's 58th Craniofacial Growth Series (2022) on Deep Bite Treatment with Clear Aligners. She is a member of the Editorial Board of Seminars in Orthodontics and the Journal of Aligner Orthodontics, as well as the Clinical Advisory Council for the Journal of Clinical Orthodontics. She is a reviewer for several orthodontic journals and has published research papers on clear aligners. Dr Tai is a much sought after international speaker and lectures globally on clear aligner technique.

The Class II Challenge: Timing, Technique and Transformation

Abstract: This presentation will discuss how to treat Class II malocclusions by combining vertical protocols for deep bite and open bite, with anterior-posterior protocols such as elastics, molar distalization and growth modification with Invisalign with Mandibular Advancement. Clinical pearls will be shared for successful clinical outcomes based on proper diagnosis, treatment planning and setting up a predictable digital treatment plan.
